

# COMPLIANCE AUDITS

## Research | Consulting

**AboutFace** specializes in Compliance Audits in a wide range of industries:

- Education
- Health Care
- Pricing
- Real Estate
- Financial

## Features

- Accurate
- Accessible
- Comprehensive
- Clear and User-Focused
- Agile and Adaptable
- Technology Compatible
- Standardized and Scalable

## Benefits

- Monitor compliance and non-negotiable standards that put your business at risk
- Prevent Fines by Assessing State, Federal, and Legal Compliance
- Compare your documented quality management procedures versus real-world practices
- Locate deficiencies in quality management processes
- Identify potential opportunities to eliminate waste (a key facet of lean manufacturing)
- Initiate corrective and preventive actions (CAPA) and remediation of non-conformances
- Verify that your CAPA have been completed effectively and on time
- Recommend ways to further optimize your company's quality management and compliance practices to lower cost of quality

Through 2 different types of Compliance Audits:

- Functional or Vertical
- Process or Horizontal

Compliance auditing determines if a process or transaction has followed applicable rules.

If rules are violated, the audit determines the cause and recommends ways to prevent future deviations.

The rules being tested can be those created by any of the following:

- Organization Itself
- Corporate By-Laws
- Policies, Plans, or Procedures
- External Laws/Regulations
- External Standards
